

Dynac series DDR4 3200 DRAM

Product Description:

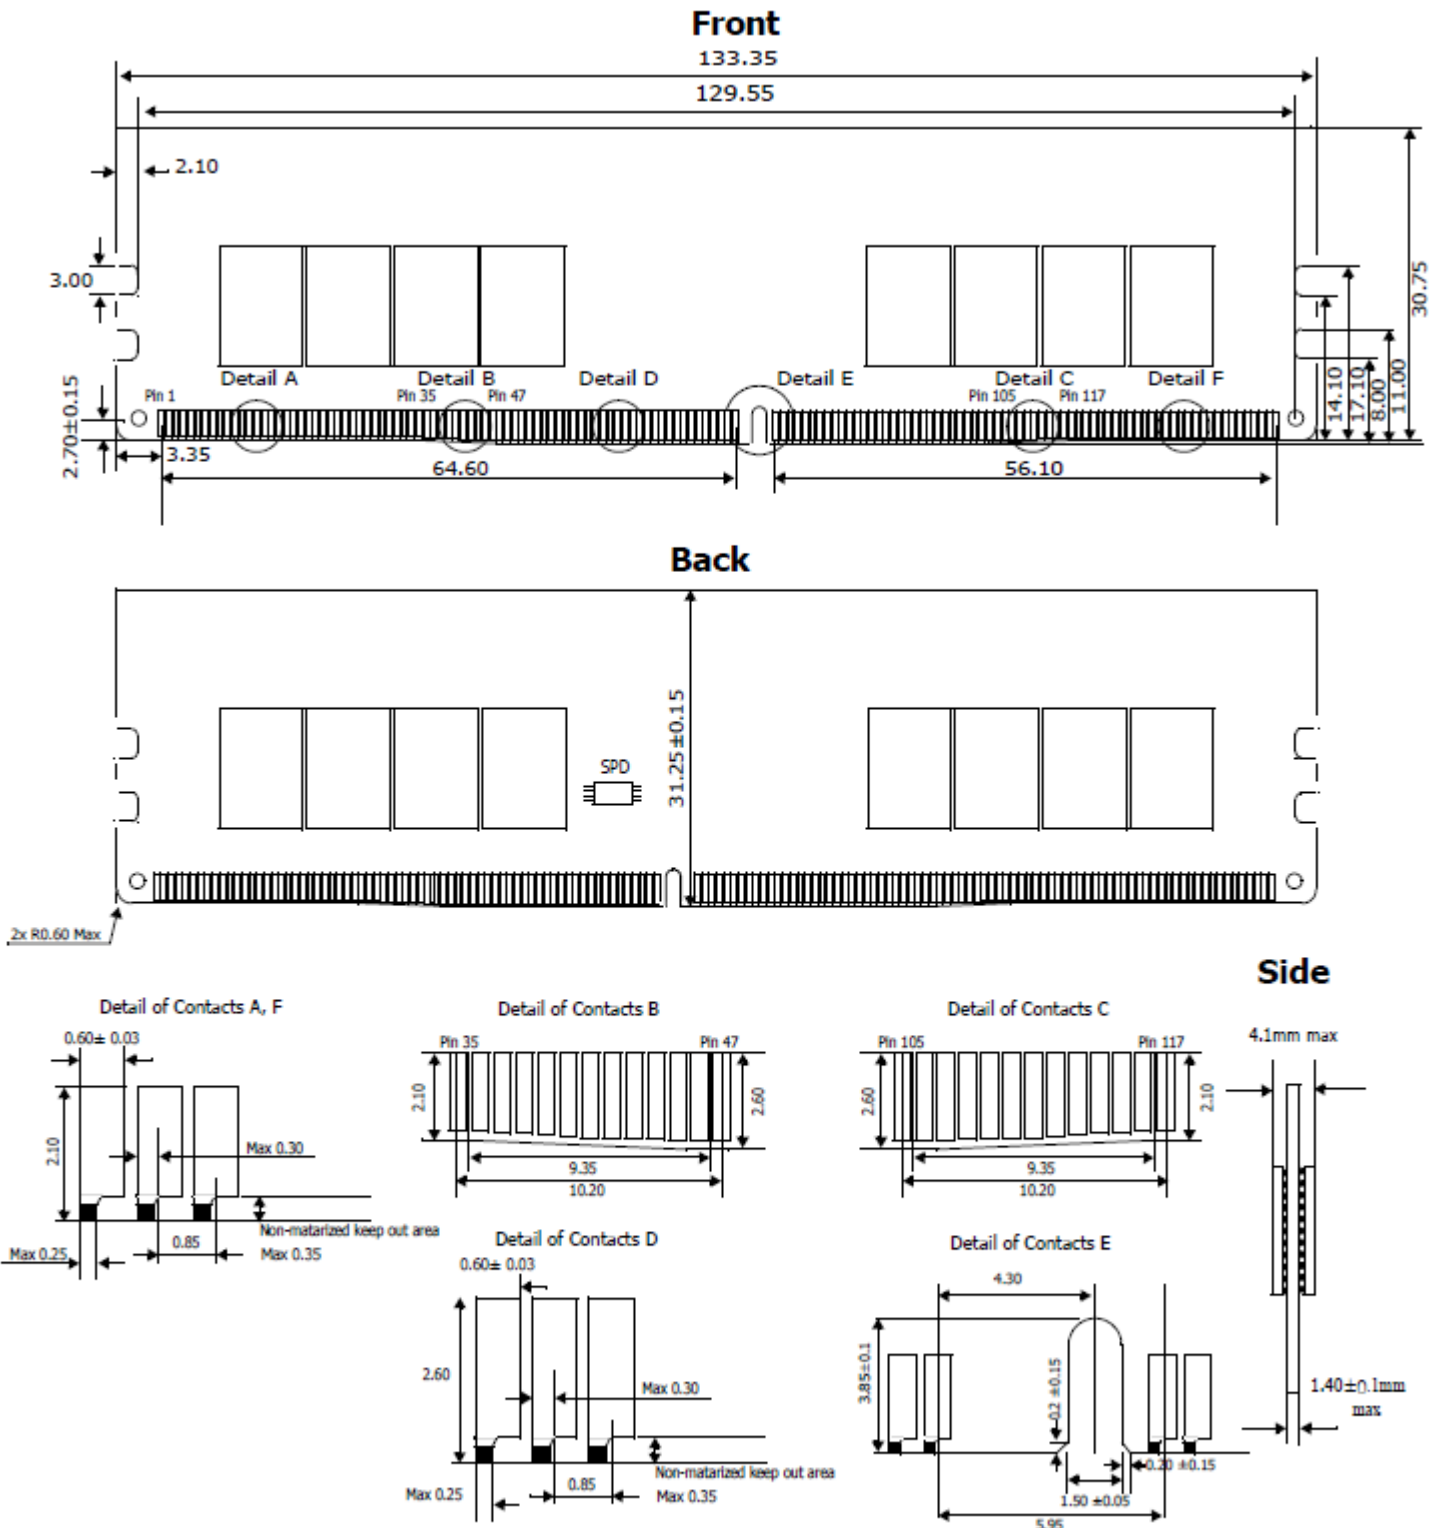

Dynac series memory module uses effectively tested original chips and has undergone rigorous screening and testing to demonstrate excellent compatibility and stability. Perfect for system upgrade.

Each memory module has 3200 MT/s, which can greatly improve system operation efficiency.

Product Information:

Memory type	DDR4
Physical dimension	U-DIMM / SO-DIMM
Capacity	8 / 16 / 32 GB
Speed	3200
CL value	22-22-22
Operating Voltage	1.2V
Operating temperature	0°C - 85°C

U-DIMM:

Note:

1. ±0.13 tolerance on all dimensions unless otherwise stated.

SO-DIMM:
